

## **FISCAL NOTE**

TO: Chief Clerk of the Senate  
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: January 23, 1996

SUBJECT: **HB 1960 - SB 1981**

This bill, if enacted, will allow local government governing bodies to establish computerized electronic information systems which would provide direct access to public records. The local government will also be allowed to charge a fee for use of the system.

The fiscal impact on local governments from enactment of this bill in and of itself is estimated to be minimal since the provisions of the bill are permissive.

Any increase in local government expenditures and local government revenues will depend upon the number of local governing bodies choosing to establish such a computer system and the amount of the fee they charge users of the system. Such increased expenditures and revenues cannot be determined but are estimated to exceed \$100,000 respectively, if several local governing bodies establish such systems and fees.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
